## New design of OUR STORY

We have redesigned the Programme newsletter OUR STORY!

We had conducted the poll regarding the Programme communication during the National seminars for Beneficiaries and partners in October, and 88 out of 179 respondents acknowledged they had found the OUR STORY useful.

Some people responded that they had not received the OUR STORY. Therefore, we call the Beneficiaries and partners to inform your partners about the possibility of receiving the OUR STORY. It is a good and fast-to-read source of the newest Programme information. Subscribe: [information@enpi-cbc.eu](mailto:information@enpi-cbc.eu).

## 22 Grant Contracts have been signed in 2013

The Joint Managing Authority of the Programme (the Ministry of the Interior of the Republic of Lithuania) has signed 22 Grant Contracts with the

project Beneficiaries this year.

You can read the descriptions of all the projects on the Programme website [www.enpi-cbc.eu](http://www.enpi-cbc.eu), section [PROJECTS](#).

## Results of Communication Assessment and Most Popular Project

The poll regarding the Programme communication conducted during the National seminars for Beneficiaries and partners in Daugavpils, Vilnius and Minsk in October of 2013 revealed the following:

32% of respondents assessed the Programme Communication as of "highest standard". 66% responded that the communication was "as it should be".

The mostly used primary sources of information about the Programme are [www.enpi-cbc.eu](http://www.enpi-cbc.eu), Programme events and OUR STORY.

The respondents were also asked, what project is the most visible in their region. Judging by the answers, **the most visible project in all 3 countries is the [LLB-I-098 "Bella Dvina 2"](#)**. Congratulations!
